Features: • over 300 hours of training and 6000+ exercises based around words, sentences, vocabulary and real life language role plays. Improve your English for business, travel, education and social events.

Overview: EyeSpeak uses native speakers of English and everyday language to develop your English pronunciation, listening comprehension and English vocabulary skills easily and naturally.

Improve your spoken English by using EyeSpeak's clear speech recognition to compare your speech with a native speaker. Helping you to learn English by letting you see what you have said!

View dynamic feedback to learn how to improve your English sounds. Compare your speech to that of your native teacher using visual mouth diagrams, wave form diagrams and audio recordings.
