# Reading Freedom 5

- Genre:** Literacy - Independent Reading Skills  
Achievement tests
- Ages:** 9 – adult learners
- Suitability:** for primary and secondary school students who are experiencing reading difficulties, including those who are dyslexic or have short-term memory or ADD. It is also suitable for “English as a Second Language” students.
- ISBN:** 1-876990-09-0
- Barcode:** 9 332869 00107
- Pricing:** \$59.95 – single user (code MW-RF5-002-1)
- Site Licences:** (includes Media) only available with Reading Freedom Pack  
\$499.00 – unlimited sites (code MW-RFP-002-LU)  
includes all 5 Reading Freedom titles

**Features:** • fully interactive phonics program • structured reading development • motivational learning activities • phonemic awareness skill building • fully narrated • progress monitoring • printable certificates • friendly graphics • adjustable settings for individual students

**Overview:** The Reading Freedom series has achieved wide recognition across Australia, and overseas, as a highly successful means of improving the literacy skills of students of all ages and abilities. It has been carefully structured to enable students to become independent readers for their own enjoyment.

The Reading Freedom 5 - Achievement Tests is a valuable diagnostic tool for parents and teachers. The carefully structured tests have been specifically designed to monitor student progress through the Reading Freedom series of programs, by providing a familiar and non-threatening form of assessment.

They are an effective means of monitoring efficiency of instruction, demonstrating mastery of the reading skills learnt and indicating areas that need further reinforcement, while providing an encouraging record of progress for students.

The program is self-marking, and compiles a comprehensive, printable record of the results attained for each test. Student achievement is also recognised with the awarding of printable certificates that can be viewed on screen at any time.

In this program, there are 8 modules covering 44 self-contained tests. The modules and tests are aligned with the learning material contained in the first four reading Freedom programs.

When students have completed the Reading Freedom series, they will be competent and confident readers.

**Compatibility:** Vista XP 2003 2000 Me 98 - OS X.x
